

Invitation to Exhibitors

Third Annual

UST/LUST National Conference

State Fair

The State Fair is an invaluable opportunity for Conference participants to talk to or visit:

Session Speakers to answer follow-up questions.

Subject Area Experts to discuss topics like leak detection, tank and cleanup technologies, and successful program techniques.

Displays by any EPA or state program with a unique product, project, or approach it is willing to share.

However.....

**This Fair will be held ONLY
if enough State exhibitors participate.**

If you have a manual, computer application, video, project, or any other useful program tool that other UST/LUST programs might be interested in seeing at the State Fair, please let Peggy Prevost of EPA OUST know you plan to exhibit by February 5, 1999; she can be reached at (703)603-7152.
